IN THE CLAIMS

Please delete claims 1-4 and add new claims 5-21 as follows:

5 5. (New) A secure printer system comprising:

(a) an electronic device having a secure compartment, the compartment comprising a door and a locking mechanism; and

(b) a printer system positioned in the secure compartment, the printer system comprising a support frame, a chassis engaged with the support frame and a printer assembly removeably attached to the chassis.

6. (New) The secure system of claim 5, wherein the electronic device is a gaming device.

7. (New) The secure system of claim 5, wherein the electronic device is an automatic teller machine.

8. (New) The secure system of claim 5, wherein the printer system prints on a printable media that is outputted through an opening in the secure compartment.

20 9. (New) The secure system of claim 5, wherein the printer assembly comprises:

(a) a printer for printing on printable media; and

(b) a controller for controlling the printer.

10. (New) The secure system of claim 5, wherein the printer system further comprises a media holder for storing printable media, wherein the media holder is positioned beneath the printer assembly.

5 11. (New) The secure system of claim 6, wherein the printable media is fully exposed when the printer assembly is removed from the printer system.

12. (New) The secure system of claim 5, wherein the printer system further comprises glides for slidably engaging the chassis with the support frame in a lateral direction.

10 13. (New) The secure system of claim 5, wherein the printer assembly comprises pins for engaging slots in the chassis.

15 14. (New) The secure system of claim 5, wherein the printer system further comprises a locking mechanism for securing the chassis in a closed position on the support frame.

15. (New) A secure printer system comprising:

(a) an electronic device having at least one internal compartment, one of the at least one internal compartment being a secure compartment comprising a door, a locking mechanism and
20 an opening for dispensing printable media; and

(b) a printer system positioned in the secure compartment, the printer system comprising a support frame, a chassis engaged with the support frame, a printer assembly removeably attached to the chassis and a media holder for storing printable media.

16. (New) The secure system of claim 15, wherein the printer assembly comprises:

- (a) a printer for printing on the printable media;
- (b) a controller for controlling the printer;
- (c) a drive wheel for advancing the printable media through the printer system; and
- 5 (d) a media guide for guiding the printable media past the printer and through the opening

in the secure compartment.

17. (New) The secure system of claim 15, wherein the printer assembly further comprises a tear
bar for tearing the printable media.

18. (New) The secure system of claim 15, wherein the media holder is positioned beneath the
printer assembly, and wherein the printable media is fully revealed when the printer assembly is
removed from the printer system.

19. (New) The secure system of claim 15, wherein the printer assembly includes pins for
engaging slots in the chassis.

20. (New) The secure system of claim 15, wherein the printer system further comprises a locking
mechanism for securing the chassis in a closed position on the support frame.

21. (New) The secure system of claim 15, wherein the printer system further comprises glides
for slidably engaging the chassis with the support frame in a lateral direction.

REMARKS

Please enter this amendment prior to initial examination in the merits. By this amendment, the Drawings, Specification and claim 1 have been amended and new claims 5-21 have been added. No new matter is believed added.

5 The Specification has been amended to correct some minor typographical errors. Figure 11 has been amended in accordance with the Request for Approval of Drawing Corrections filed concurrently herewith to reconcile a minor labeling error. In particular, the Application originally submitted included two Drawings marked as "Figure 11." It is proposed to change the second "Figure 11" to "Figure 12." With respect to the claims, claims 1-4 have been cancelled and claims 5-21 have been added to further clarify the invention.

10 The applicant submits that the present application is in condition for allowance. If the examiner has any questions regarding the application or this response, the examiner is encouraged to call the applicant's attorney, Ian F. Burns, at (775) 826-6160.

15 Respectfully submitted,
